

SEEING IS BELIEVING

The biggest gripe of any all-you-can-grab sale experience is having the coveted buy in question smuggled from your 20/50 vision. No longer confined to the perpetually sour dispositions of OLs and spinster librarians, these flashy frames from Danish-based eyewear group Bellinger lets you hone sniper-sharp eyesight and look fly doing it. Made from quality acetate metal, these hand-carved frames are indeed a sight to behold, on account of their stand-out hues and punchy textures hemmed into the temples of the eyeglasses. For those interested in additional information on Bellinger's latest, our go-to guys at The Lens Men and The Eye Site would only be more than happy to tip you a wink on the freshest catches of the day.

BELLINGER FRAMES ARE PRICED FROM \$293 TO \$490 AND ARE AVAILABLE AT ALL THE LENS MEN OUTLETS, INCLUDING THE CENTREPOINT #02-03, AND AT THE EYE SITE, PARKWAY PARADE SHOPPING CENTRE #B1-99/100. WWW.BELLINGER.DK / WWW.THELENSMEN.COM
